"Operation USA is an **international relief agency that helps communities at home and abroad overcome the effects of disasters, disease and endemic poverty** by providing privately-funded relief, reconstruction and development aid.

Working with grass-roots partners on the ground, Operation USA provides material and financial assistance necessary in the face of a disaster, as well as to combat the effects of systemic poverty. Dedicated to rebuilding with commitment and listening to communities' voices to determine the best way to assist them, Operation USA stays in the field long after many others leave. Long-term projects are supported that promote [education](#) and health services, sustainable development, leadership building, income generating activities and advocacy on behalf of vulnerable people worldwide."
